Version 6.8

Release Section

XIII. Facility Management Services

❖ Work reporting status wise summary to be shown - like hub

❖ Summary:

This feature describes Work Reporting with different status with easy navigations in Search Page

❖ Feature Category:

Usability.

❖ Pre-Requisites:

Nil.

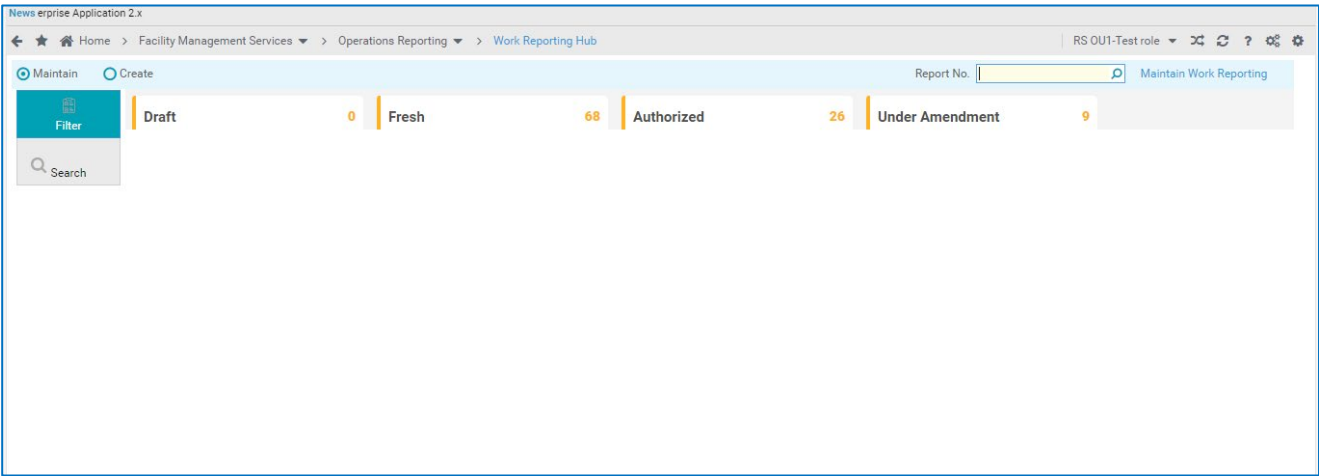

❖ Description:

This feature aims to enhance the FMS by introducing a status-wise summary display for work reporting. Similar to the hub-style display, this feature provides users with a comprehensive summary of work reporting activities based on different statuses

❖ Navigation:

Facility Management Services → Operations Reporting → Work Reporting Hub

❖ Screenshot:

❖ Business Scenario:

The introduction of a status-wise summary display for work reporting activities in the FMS enhances the platform's functionality by providing users with a centralized and organized view. This feature supports

efficient monitoring, improves decision-making, and contributes to overall workflow optimization within the financial management system.

❖ **Limitations:**

Nil.

❖ **Other Impact:**

Nil.

❖ **Auto create Sales Quotation during FMS Cost sheet Approval & auto amend the same during Approval after Amendment.**

❖ **Summary:**

Auto create Sales Quotation during FMS Costsheets Approval & auto amend the same during Approval after Amendment..

❖ **Feature Category:**

Usability.

❖ **Pre-Requisites:**

Enable the new additional Function Parameter "Auto create Sales Quotation with Cost Sheet No. itself during Cost Sheet Authorization"

❖ **Description:**

The proposed feature automates the creation and amendment of Sales Quotations during the approval process of FMS Cost Sheets based on a new parameter at Addl. Function Parameter page. This streamlines the traditional quotation generation and ensures that sales teams have up-to-date info. for customer interactions.

❖ **Navigation:**

Facility Management Services → Sales of Services → Maintain Cost Sheet

❖ **Business Scenario:**

Automating the creation and amendment of Sales Quotations during the approval process of FMS Cost Sheets is a strategic enhancement that improves operational efficiency and communication accuracy. By seamlessly synchronizing pricing and terms, the feature ensures that sales teams have the most up-to-date information when engaging with customers, contributing to a more streamlined and effective sales workflow.

❖ **Limitations:**

Nil.

❖ **Other Impact:**

Nil.
